

CMD: External Courses Grant Policy

June 2019

Grants for clergy learning and development not covered by the CMD programme

It may not be possible for all of the learning and development needs of clergy to be met by the CMD programme offered. If clergy identify an event outside of the programme that meets an agreed development need they can apply for an external courses grant.

Grants of up to one third of the cost of the event/course will be made by central funds with the expectation that parishes and clergy will each contribute the remaining two thirds. If this expectation creates a difficulty for the parish or the individual, please do speak in confidence to the Training Team Leader as additional discretionary funds may be available.

Clergy can usually apply for a grant for an external course not more than once a year.
